

Acriflex Mono

Single-component water-based liquid waterproofing (such as **Acriflex Mono**), suitable for both indoor and outdoor application. It is elastic and flexible, can be left exposed and is available in different colours. Suitable for waterproofing roofs, terraces, balconies and horizontal concrete surfaces; foundations, flashings, eaves, cornices, chimneys, canopies, walls and facades. The product can also be applied on non-absorbent surfaces (tiles, metal, etc.) after using a primer (such as *Grip Primer*). It is also suitable for waterproofing wooden surfaces. Minimum required characteristics: Break Elongation 170 %; Impermeability 1.5 atm.
