

O.R.A. Anti-Rain

Transparent, solvent-based liquid waterproofing agent (such as **O.R.A. Anti-Rain**) designed to stop water infiltration on tiled terraces or balconies without the need to remove existing tiles or flooring, and therefore on all areas exposed to weathering. It is suitable for all areas exposed to weathering. It also protects surfaces against the penetration of grease, acids and salts. Minimum required characteristics: Adhesion on tile 3.5 N/mm² (excellent); Resistance to Withering Test 1680 hours (> 10 years); Resistance to contact with hydrochloric acid (HCl – 30% solution) for 12 hours – unchanged; Water Vapour Permeability Coefficient $\mu = 1941$.
