

Acriflex Primer

Single-component, water-based impregnating primer for asbestos substrates (such as **Acriflex Primer**). Designed to be used in combination with waterproofing products suitable for asbestos encapsulation, as it prevents the dispersion of asbestos cement fibres, allowing them to be removed or coated later. The product is certified for the encapsulation of asbestos according to UNI 10686, Ministerial Decree of 20.08.1999 annex 2 - appendix 1, Ministerial Decree of 06.09.1994 and subsequent amendments and integrations, alone or in combination with DIASEN *Acriflex Pro* or *Acriflex Rapido* waterproofing products. Minimum required characteristics: Capillary absorption and water permeability < 0,1 kg·m²·h^{0,5}; Direct traction adhesion > 0,8 N/mm² | 116,030 lb/in²; Water vapour permeability – Class I.
