

Elites F2

AR fiberglass connector with double-sided tassel (such as **Elites F2**) designed for structural reinforcement of masonry, arches and vaults. It is characterised by a rigid preformed central segment and two high-strength fiberglass tassels. It is suitable for seismic adjustment and upgrading of structures located in areas at risk. Minimum required characteristics: Pull-out strength of an insert on a masonry support (internal method) 5,50 kN; Tensile strength (internal method) 490 MPa.
