
Safety data sheet 13/07/2010 Rev. 0000

1. Product and Society identification

Denomination: **SAFETY JOINT ROLL**
Product type and use: Non woven elastic band to cover joints
Producer: Diasen s.r.l.
Z.ind.le Berbentina, 5
60041 Sassoferrato An – Italia
Emergency telephone number of the company and / or an authorized consultation:
Diasen s.r.l. Tel. 0732/9718

2. Ingredients composition/information

Dangerous substances for health in accordance with Directive 67/548/EEC and following adjustments or for which there are recognized exposure limits and their ranking:
none

3. Dangers identification

The product being formulated with non-hazardous products does not have exposure limits

4. Medical aid intervention

General advice: /
Inhalation: /
Skin contact: Wash with water and soap if it causes irritation.
Eyes contact: /
Ingestion: /

5. Fire measure

Recommended fire extinguisher: Water
Forbidden fire extinguisher: /
Protection measures: The product is not flammable.

6. Measure in case of accidental dispersion

Personal precautions: Collect without limit exposure.
Environmental precautions: Collect without limit exposure.
Cleaning measure: All

7. Handling and storage

Precautions: /
Storage: Store the product in a dry and shady place. Storage time: 24 months.
Packaging: /
Incompatible materials: Keep away from food.

8. Personal protection/exposure control

Hand protection: /
Eyes protection: /
Skin protection: /
Inhalation: /

9. Physical and chemical property

Composition: 100% polyester
Mesh width: mm 0,3
Mesh weight: gr 90 sqm
Longitudinal elongation: 32%
Transversal elongation: 93%

10. Stability and reactivity

Conditions to avoid: Do not expose to direct sunlight or temperatures lower than 0°C.
Incompatibility: None
Dangerous reaction: None

11. Toxicological information

Eyes contact: /
Skin contact: /

12. Ecological information

The product is not biodegradable, do not dump.

13. Disposal

Product recommendations: Keep in mind that the glass fiber does not disappear for incineration, but form glazed masses.
Dirty containers recommendations: Do not dump.

14. Transport information

Road transport: No provision
Sea transport: No provision

Air transport: No provision

15. Regulations information

The product is not dangerous under Directive 88/379/CEE and following adjustments.
Use good practice while handling.

16. Further information

Main bibliography: NIOSH – Registry of toxic effects of chemical substances (1983)
National Institute of Health - Material Safety Data Sheets of organic solvents used in industrial technological processes (1985)
ECDIN – Environmental chemicals data and information network – Joint research centre, Commission of the European Communities
ACGIH – Threshold limit values (2000)
SAX'S – Dangerous properties of industrial materials – tenth edition
