

L'Antipioggia Terrazzi (Anti Rain)

Transparent, water-based liquid waterproofing (such as **L'Antipioggia Terrazzi (Anti Rain)**) designed to stop water infiltration on already tiled terraces or balconies, without having to remove the existing tile or flooring, and therefore on all areas exposed to the action of atmospheric agents. It is suitable for all areas exposed to weathering. It also protects surfaces against the penetration of grease, acids and salts. Minimum required characteristics: Adhesion on tile 3.5 N/mm² (excellent); Weathering Test 1680 hours (> 10 years); Water Vapour Permeability Coefficient $\mu = 1941$.
