Limepaint

Highly opaque and breathable lime-based liquid aqueous paint (such as Limepaint). Solution for indoor walls and ceilings, ideal to finish plasters made with *Diathonite*. Thanks to its high breathability, it contributes to regulate the hygrometric balance of the rooms, avoiding mould formation and enhancing indoor wellness. Designed to coat dry, compact, absorbent and cohesive mineral plasters. Minimum required characteristics: Weathering Test 1680 hours (> 10 years); Film formation temperature + 5 °C | + 41 °F.
