

Ultragum

applicable and flexible even at low temperatures and high relative humidity, available in various colours. Designed for waterproofing smooth or slated bituminous membranes (in combination with primer such as SBS-bond) and for restoring cracks, detachments and fissures in the membranes (in combination with reinforcing mesh such as *Polites TNT*). Ideal for waterproofing flat or sloping concrete roofs, canopies, terraces, balconies, flashings, eaves, cornices, chimneys, foundation walls, walls, fibre cement slabs, indoor areas such as bathrooms, shower cubicles, kitchens and wet areas and - in general - wooden surfaces. Ideal for application on existing floors or metal surfaces (in combination with Grip Primer). Minimum required characteristics: Time before filming 30 min; Break Elongation – 336.20 %; Tensile strength 1.0 N/mm² | 145.04 lb/in² (psi).
